

Preparing Wearables for Drop-Off at Satellite Houses

- Members should include support garment(s) to dress a full mannequin.
- Garments should be average size, adult clothing. No children's clothes, no leggings, shoes, or jewelry.
- If your garment is COMPLICATED include a brief description of how it should be displayed.
- ALL entry garments and support garments must arrive at the satellite house together, either on a hanger cover with a plastic dry cleaning bag (or large garbage bag) OR put all pieces in a tote bag (recyclable shopping bag). This is so nothing gets separated in transit.
- Put your name on ALL pieces.
- [Baste the identification label to your Wearable as instructed.](#)

The organisers will not be able to supply any support garments this year.
